

Our expertise in the payments sector

**BUDDLE
FINDLAY**

Payments

Buddle Findlay is New Zealand's leading payments team with over 30 years combined payments experience.

Our payments team act for many of the major banks operating in New Zealand, a number of non-bank financial institutions, the Crown, Payments NZ, credit card companies, payment switches, crypto-currency operators and entrepreneurs developing payment applications. We regularly advise on payment systems, mobile payments, crypto-currencies, domestic debit, credit card interchange, payment gateways, merchant acquiring arrangements (global and domestic) and prudential regulation.

Whether you are an issuer, acquirer, card scheme, customer looking for more effective ways to pay, a merchant, clearing and settlement bank, agency bank, payments switch, ATM provider, payment standard body or regulator – you can have confidence that our payments team understands payments and can provide you with more than just legal advice.

Financial services regulation

Our financial services regulation team is at the forefront of the newest legislative changes relating to the provision of financial services and products in New Zealand, and has worked on a wide range of matters in relation to the provision of financial services, including advising financial institutions, financial services providers and FinTech enterprises on financial product and conduct legislation (consumer and wholesale), licensing and prudential supervision requirements, AML/CFT compliance and creditor enforcement regulation.
